

Как да направите screenshot от симулатор за iOS

<https://go359.com/bg/napravi-screenshot-ios-simulator-p1565>

След като стартирате iOS симулатора натискате иконката за screenshots. след това трябва да изберете къде да се съхранят файловете

Преди да направите няколко снимки на емулятора, направете една и я качете и ако apple е ок с размерите, тогава направете и другите снимки.

iOS App Version 1.0

The assets and metadata below appear on your app's product page, when users install your app, and will be used for web engine search results once you release your app.

English (U.S.)  

Adding accurate screenshots of your app on the newest devices can help you represent the app's user experience. Keep in mind that we'll use these screenshots for all display sizes and localizations. Screenshots are only required for iOS apps, and only the first 3 will be used on the app installation sheets.
